

15 MAY 2014

All D11NR Vessel Examiners(VE's)

Just a reminder that failure to complete the REQUIRED National Vessel Examiner (VE)workshop by June 30, 2014 (approx 45-days) will result you being placed in REWK status. Any VSC activity after this date will not be able to be entered into AUX DATA until the workshop has been completed.

Failure to complete the required workshop by December 31, 2014, will place you in REYR status which means you will have to complete the required workshop and in addition perform 2 VSC's with a qualified examiner and then submit the MT-2 to DIRAUX to be reinstated. Currently, there are 134 D11NR examiners that completed the workshop with approx 125 examiners that have not.

Please go to the D11NR website: <http://rbsafety.d11nuscgaux.info/ve/ve.html> where you can find an easy to follow link to AUXLMS, or a 1 1/2 hr power-point presentation shown at D/Train that can be downloaded and presented by a qualified instructor locally.

Please don't wait until the last minute!

Regards,
Mike Lauro DSO-VE
