-2012 VSC Decals Order Information

The 2012 VSC Decals are now available for ordering from ANSC. As in the past, ONLY the CURRENT FC or FSO-MA or the Division counterparts can order decals and supplies. Decals will NOT be automatically sent and you MUST submit the completed 2012 order form! Please go to the D11NR Vessel Examiner website:

<http://rbsafety.d11nuscgaux.info/ve/ve.html> and under "**HOTLINE MESSAGES**" to find the 2-page form, print and fax it to ANSC. As in the past, please do not request a decal quantity, ANSC will handle that number based on VSC activity from July 2010 to June 2011 plus 10%. Please do not wait to order your initial allocation.

The decals should be given to the FSO-VE and distributed to flotilla examiners based on 2011 activity shown in AUXINFO. There is an AUXINFO link available on the D11NR Vessel Examiner website: <http://rbsafety.d11nuscgaux.info/ve/ve.html>. Also be sure to plan ahead for NSBW, VSC Inland Lake Blitz Days, and VSC Mega-week promotion. Please remember that the Division is the flotilla immediate emergency back up source. Please do NOT request supplies from me. Additional supplies from ANSC will be available as the year progresses.

Lets submit our orders ASAP to provide the boaters the service in 2012 that they've come to expect. This will in turn make 2012 another banner year for D11NR VSC production! A similar notice has been will be sent to all Vessel Examiners by National on 12/18/2011.

Please forward this information to your local FC and/or FSO-MA. If you have any questions, please don't hesitate to contact me.

-If you haven't read the recent **Northwind** story about the Amphicar VSC, check it out on the D11NR website: <http://rbsafety.d11nuscgaux.info/ve/ve.html> under "**HOTLINE MESSAGES!**" or on the "**What New**" website: <http://resource.d11nuscgaux.info/whatsnew.html> If you have a story about a unique VSC that you would like to share, please forward it to me with any photos.

Let's work together for our safety and the safety of others by setting an example and wear our lifejacket while performing VSC's especially when working around docks and when climbing aboard large vessels!
