## San Francisco Bay Area Clean Boating

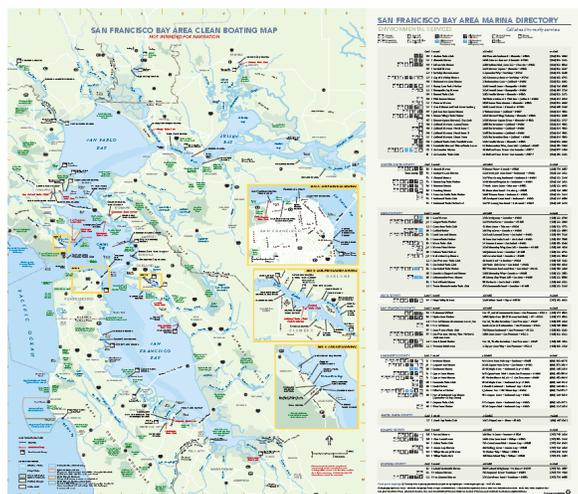

2011 Version

Published by the San Francisco Department of the Environment (City and County), the California Department of Boating and Waterways and the California Coastal Commission

With funding from the California Integrated Waste Management Board

The *San Francisco Bay Area Clean Boating Map* features locations of marina-based pollution prevention services (used oil collection, sewage and bilge pumpout, oil absorbent distribution and collection, marine battery collection), mobile boat-to-boat services and helpful information about clean and safe boating practices.

Front

This map was produced to help boaters and other Bay recreational users conveniently access pollution prevention services in the San Francisco Bay Area.

Back

Folded Dimensions: 8 1/2" X 3 3/4"

Extended Dimensions: 25 1/4" X 32 1/2"

This map is not for resale

**Maximum order is 50 maps**

### To order:
